

Power of 8 Shield

Whole House EMF and Smart Meter Protection

Many of the people living in today's homes suffer from the detrimental effects of smart meters, wireless internet radiation and EMF or electro-magnetic fields from cell phone towers and other technologies. These strong radiations and fields from devices have a cumulative effect that interferes with the healthy functioning of biological and electromagnetic processes of the human body. A person's best defense is always a strong immune system and vital etheric body.

Where the Egyptian rods (see The Egyptian Rods), protect against geopathic stress, because of the geometry, the Shield protects against harmful effects of man-made electromagnetic fields, including future 5G radiation. The Power of 8 Shield consists of eight radiating 3/32" copper rods bonded to a circular metal hoop with copper wire armature inside spheres of non-toxic hot melt adhesive. The armature formula is based on the universal harmonic for the speed of light, beneficial and harmonizing to life. **In addition a key component of the Metatronic Talisman pendant is used in the Power of 8 Shield.**

On the morning of August 14, 2011 I had an idea to arrange the Egyptian rods according to the geometry of the "sacred cut". This resulted in a pattern of two equal armed crosses of different lengths creating a star of eight radiating lines. In the fall of 2011, I brought the Egyptian rods to one of Bill Reid's subtle energy classes in Golden, Colorado. Bill, who recently passed away was a friend and researcher of geo-biology subtle energy. I arranged the rods for the group in the eight-fold geometric pattern of the "sacred cut". A definite shift in the room's energy could be felt, especially a clarity in consciousness. The rods dampened the emf's emitted by the overhead fluorescent lights. The Power of 8 shield measures 1'-10" x 1'-10".

Instructions: Secure it to an interior or exterior wall surface with a few tacks or nails with the red tip upwards. You can email questions to metatronic.talisman@gmail.com and check out my websites [Metatronic Talisman](#) and [Bialobroda Architecture](#) as well as [Conscious Homes Blog](#). **\$150.00** plus computed standard USPS ground shipping.
